NORM has teamed with DOCTORSMANAGEMENT to create a comprehensive online Certified Medical Practice Manager (CMPM) program.

NORM has developed a Certified Rheumatology Management Specialist (CRMS) program.

CMPM

We are thrilled to announce the success of NORM's Certified Medical Practice Manager Program. NORM has partnered with DoctorsManagement to bring this comprehensive online training course to our members. This program launched in April 2019 and consists of 21 modules and a 2-hour 100 question test at completion. As of April 15, 2021, we have had 58 participants sign up for the program. Congratulations to all who have earned the CMPM designation.

With the support of NORM, becoming a Certified Practice Manager (CMPM) will be the first step in opening doors to many professional opportunities. It will indicate that you have mastered the broad body of knowledge necessary to be an excellent practice manager as well as give you the education required to advance to our Certified Rheumatology Management Specialist (CRMS) program.

For NORM members, the current price for the CMPM certification is \$250. For non-NORM members, the price is \$1,040. You will have 6 months to complete the online course and join the rank of CMPM certified managers, Sign up before the price increase in 2022.

CRMS

The GetNORMed program, announced at the national conference in 2019, is an educational pathway that leads to the designation of "Certified Rheumatology Management Specialist (CRMS)". This professional learning opportunity specifically focuses on the unique administrative, clinical, compliance, and billing aspects of rheumatology practice management. The exam is open to those who have earned the CMPM or other similar professional certification from a recognized organization such as MGMA, PAHCOM or AAPC, and have a minimum of three years of experience as a rheumatology practice manager.

Due to the challenges Practice Managers have faced during the pandemic, we will keep the low introductory price of \$200 through the end of 2021. Sign up now before the price increases in 2022. We are very excited for the Rheumatology specific certification program only offered through NORM. Congratulations to the 14 who have completed the program.
